About us

Bal Logistics provides crane truck hire and lifting solutions. We are the Crane Hire specialists with a fleet of 30+ crane trucks. Our expert crews deliver safe and efficient solutions 24/7. We work closely with our project partners, using the qualified and experienced crew, cranes, trucks and equipment, to deliver the efficient and reliable logistics and lifting solutions. Our operations team is available 24 hours a day, 7 days a week to assist with your project.

Achievement

Over the years, we have built a strong reputation in the trucking and logistics industry, successfully delivering goods across vast distances and ensuring timely, safe, and cost-effective transportation solutions. Our clients range from construction industry like timber, steel, trusses, other construction materials suppliers and across all other sections of logistics industry.

Our Aim

Our aim is to deliver reliable, efficient, and safe transport solutions with a strong focus on crane truck hire services. We are committed to supporting our clients with precise loading and unloading capabilities, especially in challenging or restricted-access environments. By combining skilled operators, well-maintained equipment, and a customer-first approach, we strive to complete every job on time, with professionalism and the highest safety standards.

Some of our fleets

Fleet inventory

Bal Logistics have a broad range of Crane Hire options and lifting capacities to deliver any project.

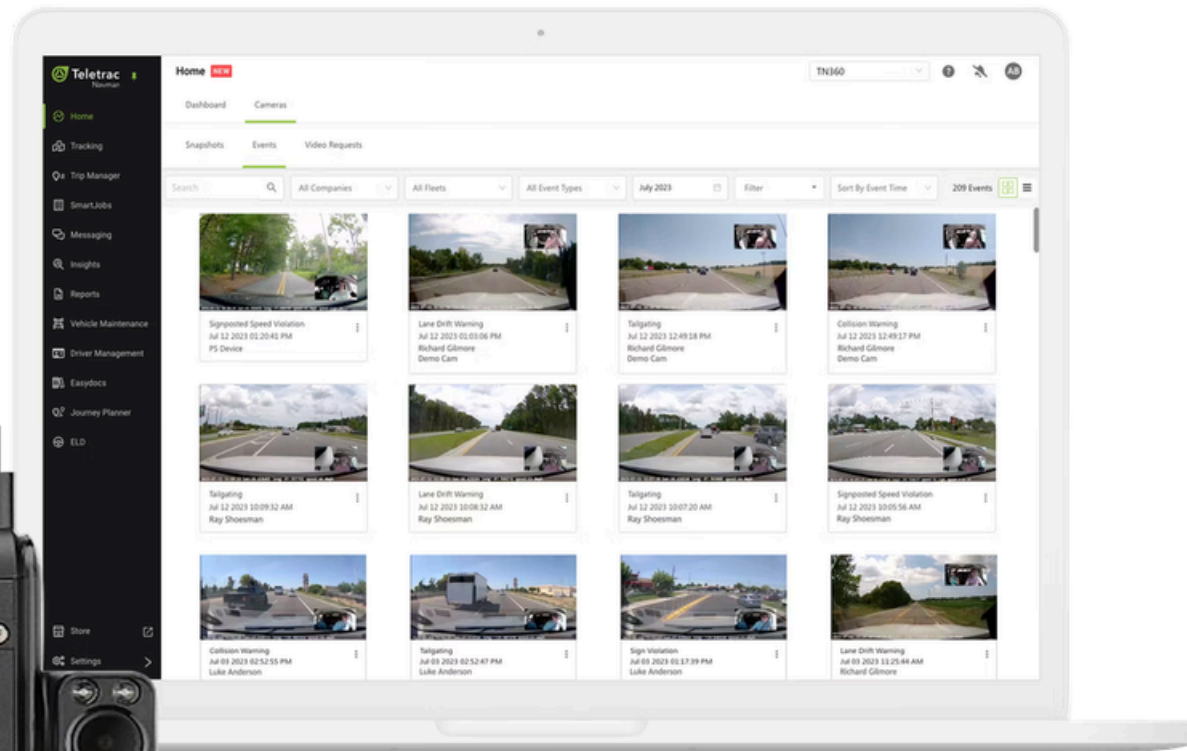

No project is too big or too small for our comprehensive crane and truck's fleet. Our range consists of Crane trucks, prime movers, semi tray etc. with lifting capacities up to 9.2 tonnes and payload up to 24 Tonnes.
